

I want to file a complaint with the FCC concerning localism, but more importantly LPFM. I am speaking on behalf of about 75 other people, people who want LPFM instituted in San Diego right now. We own the airwaves, yet we can't even have community radio stations in our own city? Please make LPFM available as soon as possible. And don't let those N.A.B. cronies stop you. I have faith in the FCC to promote free speech.
